

## Call for Sites

# Neighbourhood planning

Stanton St Quintin

Most of you will already be aware that a Neighbourhood Plan is being prepared for the Parish of Stanton St Quintin; it is sponsored by the Parish Council and led by the Neighbourhood Plan Steering Group; a group of volunteers with a range of interests who are leading the process.

We have a website which will enable you to see how the plan is progressing and keep up to date on any news affecting the plan. The address is [www.ssq-np.co.uk](http://www.ssq-np.co.uk).

As part of this work, the Steering Group are required to try to identify any sites within the parish but outside the current boundaries of the villages that might be developable within the life of the plan – currently out to 2036.

In this context, by DEVELOPABLE we mean:

***Sites in a suitable location for housing development within the parish; there would be a reasonable prospect that the site is available and could be viably developed at the point envisaged.***

If you own or are aware of any other sites that might meet this definition, the Steering Group would be grateful for your input.

If you have any queries or contributions, please contact us either on our email address or drop a letter in the box in the Church entrance:

[stanton.np@gmail.com](mailto:stanton.np@gmail.com). Thank you
